We are not a gluten-free or nut-free restaurant and cannot ensure that cross contamination will never occur. There is a great deal of gluten/allergens in the air and on our work surfaces. Our sandwiches must be prepared on the same surfaces as our other sandwiches which means there is a good risk of cross contamination. If you have Celiac and/or allergies, please advise the person taking your order and know that we will do our best but cannot guarantee your order will not come into contact with those items.

GF Even though we have identified these items as gluten-free, we cannot guarantee that cross-contamination has not occurred.
